

## MAGIC

There's magic out there, in and around us

Mysterious magic that's found only through excellence

When we surpass that familiar point of 'doing our best'

When we focus, work hard and persevere through what we thought was our threshold

When we exceed that brink we're accustomed to, and venture into an unknown and  
often strenuous challenging place

There it is. There lies the Magic, ready to reward us

It welcomes us with open arms and compensates us with gifts we hadn't expected

There lies the Magic, hidden in between a clear plan and rigorous harsh hard work
